

Hello and welcome to the 2021 Glendale Legislative Link Program,

The Department of Defense’s Office of Local Defense Community Cooperation (OLDCC) is asking for community input on the noise associated with military fixed-wing aircraft. OLDCC’s [Community Noise Mitigation](#) initiative is focused on understanding the needs of areas with high-noise traffic “to develop a program that may then support noise mitigation actions by these communities.”

DOD is seeking input from communities near [205 installations](#), INCLUDING LUKE AIR FORCE BASE. Community members can share feedback through a [custom form](#).

Community Noise Mitigation

Community Noise Mitigation is an initiative being undertaken as a result of recently enacted Appropriations language to understand noise mitigation needs of communities experiencing 65 decibel or louder noise, and to develop a program that may then support noise mitigation actions by these communities.
